

**REGULAR MEETING OF THE TOWN BOARD**  
**TOWN OF GLENVILLE**  
**MARCH 5, 2014**  
**AT THE GLENVILLE MUNICIPAL CENTER**  
**18 GLENRIDGE ROAD, GLENVILLE, NEW YORK**

Supervisor Koetzle called the meeting to order at 7:30 PM;

Supervisor Koetzle asked the Town Clerk, Linda C. Neals, to call the roll.

**Present:** Supervisor Christopher A. Koetzle, Councilmen James M. Martin, John C. Pytlovany, Sid Ramotar and Councilwoman Gina M. Wierzbowski

**Absent:** None

Also present Jason Cuthbert, Comptroller.

**Town Council Reports:**

Councilman Ramotar – “The Park Planning Commission met last week and they talked about Maalwyck Park and reviewed the master plan. Things are moving right along. We are looking at something a little bit new and different between the YMCA and Indian Meadows Park. The Dog Park is pretty much ready to go on Van Buren Road.”

Councilwoman Wierzbowski – “I attended the Town Chief’s Association meeting down at the Scotia Fire Department. It was the meet and great for all of the fire officers. It was a good meeting, they have a new President, Ross Thornhill, Assistant Chief with East Glenville Fire Department. If you know of anybody in your neighborhood who is a volunteer firefighter you should take a moment and just thank them. They give so much time and effort.”

Councilman Martin – “On the economic development side, I understand with the Environmental Conservation Committee that the Amedore subdivision has been passed on to the Planning and Zoning Commission with some concerns and conditions. The Small Business and Economic Development Committee will meet tomorrow morning to continue planning the business development day which is April 24<sup>th</sup> at Riverstone Manor. The LDC has received its first loan application for loan funds. It is in the early review process and it is for Riverstone Manor for some capital improvements to the restaurant facility. This will also create four or five new jobs. Thanks to the Supervisor and a contingent of volunteers who met with Sonic Corporation. Glenville was well represented and my understanding is we were the only municipality there that represented themselves.”

Councilman Pytlovany – “Saturday night I attended a retirement party for Sargent Tom Rush from the Scotia Police Department. They honored him for his over 36 years of service to the Scotia Police Department. I wish him well in his retirement.”

The following people spoke during Privilege of the Floor:

Conrad Wilson, 506 Church Road – Mr. Wilson shared his personal story with the board regarding the target range on Church Road. He and his wife moved to Church Road six years ago. He enjoys many activities on his 7 acre property with his family and friends. He went on to explain that a little while back someone opened a shooting range. He expressed his many concerns regarding the excessive shooting. They do not feel safe on their own property. Mr. Wilson fears for their health, their well-being and their safety. He stated that it is a danger to all and very disturbing. He has called the police. He feels that their property and well-being is being reduced. Mr. Wilson has asked for some guidance from the Board.

Denise Crisci, 388 Church Road – Ms. Crisci told the Board that Councilwoman Wierzbowski was one of the reasons she was at the meeting. She said that Ms. Wierzbowski stated at a meeting back in October that there was a particular

incident up in West Glenville where the residents were having trouble with heavy traffic. You as a board came together and helped straighten that issue out.

Ms. Crisci expressed the following concerns:

There are four major problems that are affecting our quality of life on Church Road at this time. She explained that one of the concerns is the indiscriminate use of a variety of firearms in both the lower and mid sections of Church Rd. on the north side originating from the property owned by Joseph Budka. There has been constant and indiscriminate use of a variety of firearms for extended length of times. Concerned that these shootings are within the required 500 feet from each structure but it is certainly not within 500 feet of the livable space called their back yards.

There is a fear of being hit by stray bullets when working in their gardens. This is not random hunting it is sometimes hours of continuous shooting that sometimes occurs after dark. She expressed her concern regarding who is shooting. Many trucks pull into Mr. Budka's property

She compared this shooting with the Guan-Ho-Ha Gun Club on Rector Road. Cannot remember a time when she ever heard that amount of shooting. Safety precautions are taken at the gun club but not on Mr. Budka's property. Worries that they will never be able to sell their property.

Ms. Crisci read sections of the Glenville Town Code that she feels relates to this issue. (Section 270-91, section N & O). She pleaded with the Board to put an end to this.

She also talked about the obvious permit violations at Mr. Budka's repair shop/used car lot that he still continues to operate even after a court order directing him to stop.

Thomas Fonda, 795 Sacandaga Road – He expressed his concerns regarding B&H Auto in the past at several board meetings and he doesn't feel that any of his concerns have been properly addressed. He informed the board that there continues to be more vehicles at the business than the town ordinance allows. It diminishes the quality of the neighborhood. He has no problem with what Mr. Budka wants to do but Mr. Budka needs to follow the rules. A simple drive-by by any town official would verify the assessment of the property, this is not acceptable. He stated that it is such an unsightly mess that does not fit in our neighborhood.

Supervisor Koetzle – "I think you are all aware that that particular matter is in the courts right now. So the Town has responded and has issued everything it needed to issue."

John Reynolds, 212 Church Road – Mr. Reynolds expressed his concerns regarding the gun fire and the target practicing in the back. There are 17 properties that dwell around Mr. Budka's land. Mr. Reynolds stated that Mr. Budka does not live on Church Road, he lives on Bolt Road. He feels that being he doesn't live there he doesn't have to hear the noise. Mr. Reynolds showed pictures of the targets that are used to shoot at. He informed the board that he had brought this issue to them last October. The residents of Church Road would like to see the Board take another look at this situation.

Edward Dwyer, 715 Church Road – Mr. Dwyer shares the same concerns as his neighbors regarding the shooting. He also expressed his concerns regarding D & L Tree Service that has been operating on Church Road. He has been following the proper channels to get the situation addressed but it has been two years that they have been operating at that location. He feels it is a public safety issue. This coupled with the shooting limits him to explore the area with his children. D & L has been to court and rulings have been made however those rules that were done in the past they are just not enforced. They are logging on other properties and processing that wood on the property located on Church Road (728 Church Road). They are bringing in foreign wood and processing it in an environmentally protected area. I live right across the street and I don't

have any direct recourse to these actions that have been put in place that lead me to believe that the operation there is not able to run legally there however they still are running. These are my concerns and I wanted to bring it to your attention. I can hear the equipment but I really don't know what they are doing. I hear the logging trucks come in loaded and leave empty.

Tracey Allen, 418 Church Road – My husband and I have lived at this address for 23 years. She stated that she was disappointed in herself that it took her this long to come to the Board and support her neighbors with what is going on. She does not feel safe, the shooting has made her afraid on her own property. She is afraid that her dog is going to get shot. A 22 caliber rifle has a killing range of 1.14 miles, a 44 caliber magnum has a killing range of 1.42 miles, and NYS law says they only have to be 500 feet from my house. These guns are being fired toward her house. She asked the board to be sure that the codes are enforced or have a resolution that helps us be to be safe in our yards. With rights comes responsibilities and her neighbor has the right to own a gun, he has the right to shoot the gun but he also has a responsibility. As you heard tonight Mr. Budka's attitude and behavior shows that he has no concept of those responsibilities therefore we have another reason to be afraid of what he is doing.

Tom Poitras, 172 Church Road – He agrees with all of the comments regarding the gunfire. The fear issue is disturbing and it's wrong. He is worried about what is next, what is going to happen next. We are all afraid to be outside. There has been many issues with Mr. Budka and it gets worse. He is concerned about the escalation. He is clearly firing these guns to intimidate the neighbors and it really needs to come to an end. He is glad that the issue with B&H Auto is in the court process. The appearances of that is an eyesore, it's ridiculous, it's unappealing, and it affects our property values. Some vehicles have been sitting on that lot for one year at a time. It appears to be a junk yard. Mr. Poiras feels that the application to obtain the building use permit was done under false pretense. It only said that the property was vacant for eleven months. The town's investigation was not complete. B&H Auto Group is an eyesore, it's a junk yard, it's inappropriate and I don't believe it's operating legally based on the application that was submitted. We look to the board for guidance and leadership and we hope you will take this matter seriously and provide us some relief.

No one else wished to speak; Supervisor Koetzle closed the privilege of the floor.

Supervisor Koetzle – “The Board takes this seriously. In my time as Supervisor I think of all of the issues that come across my desk it's the neighborhood disputes that trouble me the most because they really affect the quality of life. They affect every day how people enjoy their home and their property. It is such a good town and this is troubling. I think last time when some of you were here talking in October I said it was very troubling for me and a little bit frustrating because from our point of view it's going through the courts now and it is out of our hands. I had a brief review of it and I am a little troubled as to how the whole thing happened, I wasn't here so I don't know what's right or wrong or who did what or who didn't do what but it seems a little bit troubling. What I'll do is talk with the police chief, I'll talk with our town attorney, I'll talk with our code enforcer, and we will get together and look at the issues. You pointed out some of the codes we should be looking at. I know just in other applications of that code it's been problematic in other areas of the town as far as measuring the disciplines and what that really means. Essentially a lawn mower running can be in violation of the noise ordinance so I will talk to the staff tomorrow and review what we went over here tonight.

If you want a point person I could take your email or phone number or you could fill out a sheet with everyone's email so I can let you know what the staff is doing on this matter. Let's figure out a way to communicate on this. We will see what we can do. Within the power we have we will react.”

Councilman Martin – “I heard three separate distinct issues. We have alleged violations of the auto repair and parking of junk cars. We have the firearms discharge and we have the processing of wood by D&L Tree Service. The first one is in the courts. I use to be a director of a municipal code office so I have dealt with this stuff all

of the time. There are limits as to what can be done through the courts. We have no police power, zoning does not constitute police power but it can be dealt with through the courts and if there has been violation of a court order that is particularly disturbing and the judge will not be happy about that. The firearm issue, I can understand that being a fearful issue. I think this needs to be dealt with very seriously and we follow through with all means at our disposal.”

Councilman Ramotar – “We are all parents here and I agree with you all 100%. So we are going to do what we can but we are limited to what we can do. We are concerned, don’t think that we are not. We have to follow the law.”

Supervisor’s Comments:

Supervisor Koetzle shared the following information with the board:

The Wellfield Protection Committee and I met with the Department of Environmental Conservation (DEC) on Monday. We spoke to them about a number of issues here in the town, one of them is the possible siting of the possible sewer plant with Scotia and what is going on with the consent order with the City of Schenectady on any new developments. They briefed us on the oak wilt which is back in Glenville, in the Glen Oakes neighborhood. They provided us with a map of the effective area and the specific trees that are going to be taken down. We had a nice discussion on the Amedore project in relation to the wetlands and what’s actually possible and not possible with infrastructure being located through those wetlands.

We have been in contact with many of the neighbors, particularly Glen Oaks but also in Indian Hills, regarding the Amedore project on the potential traffic flow through those neighborhoods. We are working with the county on trying to find other ways of moving traffic onto either Baldwin or Spring Roads. It is very difficult based on where the wetlands are and it’s very difficult based on site lines coming out where they can come out for safety as far as the county is concerned.

Our mortgage tax revenue is way down. It appears that we are going to miss our projection perhaps even by six figures. We are five months into the mortgage tax year and we are tracking below budget even though we budgeted a 16% drop from our 2013 actual revenue because we knew we were going to take a hit this year, but it is slowing down more than we anticipated. February of 2014 in fact was our worst month in thirty-eight months and that is as far back as it goes so it could be beyond that. Barring any type of turn around here in March the six month period from October 1<sup>st</sup> to the end of March will be our worst six month period since 2003. The end of the refinancing seems to be driving the mortgage slow down. The number of deeds filed in Glenville are actually up 12% from the prior year but the number of mortgages are down 32%. It’s not just Glenville, it is happening across the entire county. We budgeted \$675,000 in 2014 but could end up about \$100,000 below that. We earned at least \$625,000 in ten of the last eleven years but we probably will not hit that in 2014. Just a cautionary note.

The tax cap is another cautionary note. We are seven months into the cap year and as it stands now the 2015 cap will be about 1.42%. It is very unlikely that it will get to the 2% and it probably won’t get to the 2014 base of 1.66%, 1.4% means \$123,000 of new spending. Our health insurance goes up close to that, retirement will probably be somewhere around there based on how the stock market has pulled back a little bit. We are looking at increasing spending by \$123,000 it looks like we are going to be very, very pressed against that cap.

We met with Metroplex last Friday to discuss some economic development projects. We should have some very good news I hope soon. We discussed to abandon Avenue Y, which we will take up this evening, and that is for economic development purposes. We discussed Metroplex’s support of the lighting district, it looks like we are getting close to getting more support for our lighting district out here in the Town Center.

Kevin and I spoke with the Department of Transportation (DOT) regarding the sidewalk project which will start late summer or early fall. They are doing everything

north of Glenridge Road, both sides. Anything south of Glenridge is not in the project so we would have to do that, but they would be willing to do it as they do their work. So it would be a lot cheaper if we do it with them. But it would be \$88,000 of new spending for us to do it. We are talking with DOT about that and how we can hook up the entire district with a sidewalk. Target does have some responsibility for the sidewalk in front of First National Bank so that's about \$29,000 of the \$88,000.

We spoke to Target about why the lights aren't on in front of their property and up Glenridge Road which they are responsible for. We have been talking with them about this for a long time and they still are not on. We are getting a little bit frustrated but we seem to be making process, they have hired an electrician.

We attended the CEG lunch and the Association of Towns and went over the legislative agenda. They talked about the property tax freeze, proposed by the Governor. It seems that everyone is saying it is a flawed proposal, it's an election year give away, it doesn't do anything to save costs all it does is puts all of the responsibility on municipalities and it doesn't provide any mandate relief. We are not very happy with it and we are letting our legislatures know that.

We had a meeting with a local property owner to discuss potential use for his newly acquired property. There is some potential new use coming into some of these properties that were sold at auction.

We had an opportunity to host the boy scouts for a tour of the municipal center. We actually had an arraignment during the tour and they got to watch the arraignment of someone who shop lifted in Walmart. It is a good opportunity for our police officers to have a positive interaction.

Last Thursday I attended the Unified Military Council meeting at the Watervliet Arsenal to discuss two things. The impact of pending military cuts and then we talked about the 109<sup>th</sup> that is going to start a large re-structure project of Maple Avenue entrance at Ronald Way. This will be a significant change to Maple Avenue. This is how Washington works, on one hand they are talking about maybe we are going to be closed but right now they are giving us 14 million dollars to redo our front entrance. For security they are going to move Maple Avenue further out and move Regan Way much further down.

I attended the Unified Communication Center (UCC) meeting last Thursday. They tell us that our dispatchers are going to be gone by Memorial Day so when you back up the process on the financing of this thing the County Legislature has to adopt the budget in April, which means this board has to adopt the budget in March. So I am being asked to go to the March 20<sup>th</sup> meeting to adopt a budget that I may not see until that day. I said we can't do that, we are going to have to see the budget before that. I am hopeful to have that budget in time for the board to review before we are actually asked as a committee to vote on it. We will vote on it, the County Legislature will vote on it and then we will have to make some amendments to our budget after that as far as collapsing, dispatch line and putting in a new county line. There is no labor agreement yet and there's no budget so we are going to have to go on some assumptions.

We met with Sonic and I think there were some positive things in that meeting. There are some things that we might be a bit lacking competitive on and that is generally the traffic count but we are working on it. I think we showed them we had some positives.

We received a petition at our last meeting regarding the Old Dominion lighting situation. Our building inspector has been involved and he is working with them. They have installed some sort of diming device hoping that will work.

The response to the traffic study that I sent on behalf of the Oakhill residents to the Department of Transportation (DOT) about the problems in front of the car wash. The gentleman that has to respond to it is out on medical leave. The quick response was that they are probably not going to do anything there. Jim is going to give us some ideas

on how to re-approach DOT on that situation.

Councilman Pytlovany – “The car wash has added an exit to the back road so you can now get out by using the traffic light on Rudy Chase Drive.”

The strategic plan, we try to look at it as often as we can. With the end of the quarter coming up at the end of the month I’d like to take the opportunity at the next work session to go over where we are with it and what we have done. Actually there are quite a few initiatives that have been started by staff.

Councilwoman Wierzbowski – “In regards to the meeting with DEC and the Wellfield Protection Committee did you touch at all on the mining permit renewal?”

Supervisor Koetzle – “Apparently when you go for a renewal of a mining permit DEC is not allowed to place any other restrictions on that permit. All they can do is straight up approve it or deny it, they can’t open up other actions.”

Councilman Martin – “They amended all the NYS Laws relating to home rule a few years ago and not to the favor of municipalities.”

Supervisor Koetzle – “Some of the comments rubbed me the wrong way. One of the comments was “the mining was there first” and I said I don’t like that argument when it comes to protecting public water supply that I was here first isn’t, to me, a good argument. It looks like it is going to get renewed as is.”

Supervisor Koetzle moved ahead with the agenda items.

#### **Discussion...**

Supervisor Koetzle – “This is the Amedore project who wants us to waive the width of our streets from 30’ to 26’. I have some reservations, I’ve talked to the developer on it, and I’ve talked to Tom and Dana, driven around the streets and looked at all of the different sizes. I think with the unique situation of this being in the wetlands as it is and they need as much space as they can get and the fact that Tommy is supporting it I think it is worth going forward with the public hearing and seeing what the residents have to say.”

#### **RESOLUTION NO. 74-2014**

**Moved by:** Councilman Martin

**Seconded by:** Councilman Pytlovany

**WHEREAS**, section 238-7 of the Code of the Town of Glenville provides that newly constructed streets in the Town shall be sixty (60) feet in width with a paved width of thirty (30) feet and section 238-16 E of the Code reiterates that the pavement width, with gutters, shall be thirty (30) feet; and

**WHEREAS**, section 238-21 of the Code of the Town of Glenville permits the Town Board to waive any of the Street Standards outlined in the Town Code for good cause considering any unusual circumstances of topography or other physical condition of the proposed location of the proposed streets; and

**WHEREAS**, Amedore Construction Company, Inc. has proposed to build a 142 unit single family home residential subdivision in on a tract of land in the Town that is partially designated wetlands; and

**WHEREAS**, Amedore Construction has requested that the Town Board waive the street width standards of Town Code sections 239-7 and 238-16E so as to permit them to construct streets within the proposed development that are twenty-six (26) feet in width, with 11 ½ foot travel lanes and 18” gutters, but which would otherwise conform to the Town Code’s Street Standards; and

**WHEREAS**, the Town Board wishes to hold a public hearing with respect to the request of Amedore Construction Co. Inc. that the Town Board grant such waiver;

**NOW, THEREFORE, BE IT RESOLVED**, that a public hearing be held by the Town Board of the Town of Glenville at 7:30 PM on March 19, 2014, at the Glenville Municipal Center, 18 Glenridge Road, Glenville, New York to hear all persons wishing to be heard with respect to the request of Amedore Construction Co. Inc. for a waiver of the street width standards of Town Code sections 238-7 and 238-16 E pursuant to the authority granted the Town Board in Town Code section 238-21 with respect to its proposed 142 unit single family residential development, and it is further

**RESOLVED** that the Town Clerk is hereby authorized and directed to cause public notice of said hearing to be given as provided by law.

**Ayes:** Councilmen Martin, Pytlovany, Ramotar, Councilwoman Wierzbowski and Supervisor Koetzle  
**Noes:** None  
**Absent:** None  
**Abstentions:** None

**Motion Carried**

**RESOLUTION NO. 75-2014**

**Moved by:** Councilman Martin  
**Seconded by:** Councilman Pytlovany

**WHEREAS**, by Resolution No. 117-86, The Town Board of the Town of Glenville agreed to accept a deed to the roads in the Industrial Park, including a road known as Avenue Y which runs between the former town road, now abandoned, known as 1st Street and the current town road known as 7<sup>th</sup> Street; and

**WHEREAS**, a Quitclaim Deed was made and filed in the Schenectady County Clerk's office on April 8, 1988 at Book 1181, Page 56 conveying certain roadways from the Schenectady County Industrial Development Agency to the Town of Glenville; and

**WHEREAS**, the Schenectady County I.D.A., the Schenectady County Department of Economic Development and Planning, the Metroplex Development Agency, and the beneficial owner of the real property adjoining both sides of Avenue Y all desire and request that the Town convey its interest in Avenue Y, to the adjoining property owner: the Schenectady County Industrial Development Agency and a petition requesting same has been received by the Highway Superintendent and filed with the Town Clerk; and

**WHEREAS**, the Town Highway Superintendent joins in the request as the transfer will remove a dead end street from the town's road inventory and reduce maintenance costs for the Town for a roadway that serves no useful purpose to the Town; and

**WHEREAS**, the Town Board wishes to hold a public hearing with respect to the conveyance of said Avenue Y in the town;

**NOW, THEREFORE, BE IT RESOLVED**, that a public hearing be held by the Town Board of the Town of Glenville with respect to the abandonment and conveyance of Avenue Y to the Schenectady County I.D.A. at 7:30 PM on March 19, 2014, at the Glenville Municipal Center, 18 Glenridge Road, Glenville, New York, and it is further

**RESOLVED** that the Town Clerk is hereby authorized and directed to cause public notice of said hearing to be given as provided by law.

**Ayes:** Councilmen Martin, Pytlovany, Ramotar, Councilwoman Wierzbowski and Supervisor Koetzle  
**Noes:** None  
**Absent:** None  
**Abstentions:** None

**Motion Carried**

**RESOLUTION NO. 76-2014**

**Moved by:** Councilman Pytlovany  
**Seconded by:** Councilman Martin

**WHEREAS**, in order to maintain a safe and efficient fleet of vehicles to meet the public safety needs of the Town, the Police Chief wishes to purchase two marked replacement police vehicles to replace two marked police vehicles that have reached the end of their useful lives; and

**WHEREAS**, under Resolution 212-2013 the Town authorized the purchase of one marked police car in 2013 but the Police Department was unable to make the purchase due to the fact that the State of New York not establish the state contract pricing for police vehicles prior to December 31, 2013; and

**WHEREAS**, the 2013 funds appropriated for the purchase authorized in Resolution 212-2013 instead returned to fund balance on January 1, 2014; and

**WHEREAS**, in January 2014 the State of New York did release state contract pricing for police vehicles; and

**WHEREAS**, N.Y.S. General Municipal Law §103 permits a municipality to make a purchase through a New York State contract providing that the purchase can be made on the same terms, conditions and specifications as the state; and

**WHEREAS**, the Chief of Police has determined that the Glenville Police Department will be best served by purchasing one (1) Chevrolet Caprice model, which will result in cost savings to the Town after consideration of all applicable costs and factors, and one (1) Ford Utility Police Interceptor AWD, which will give the department the added efficiency of an all-wheel drive vehicle;

**NOW, THEREFORE, BE IT RESOLVED**, that the Chief of Police is hereby authorized to purchase two marked police vehicles utilizing state contract pricing (Ford PC66390 & Chevrolet IFB22737), including those options available to the Town under State General Municipal Law §103 (3), at a total cost not to exceed seventy five thousand dollars (\$75,000), including all necessary equipment, with said expenses charged to account code 02.00.3120.2000 Police-Equipment; and

**BE IT FURTHER RESOLVED**, that the 2014 Adopted Budget is hereby amended as follows:

Increase Appropriation Code  
02.00.3120.2000 – Police-Equipment, by \$40,000

Increase Appropriated Fund Balance  
B-599 – Appropriated Fund Balance, by \$40,000

**Ayes:** Councilmen Martin, Pytlovany, Ramotar, Councilwoman Wierzbowski and Supervisor Koetzle  
**Noes:** None  
**Absent:** None  
**Abstentions:** None

**Motion Carried**

**RESOLUTION NO. 77-2014**

**Moved by:** Councilman Ramotar  
**Seconded by:** Councilwoman Wierzbowski

**BE IT RESOLVED**, that the minutes of the regular meetings held on December 4, 2013 and December 18, 2013 are hereby approved and accepted as entered.

**Ayes:** Councilmen Pytlovany, Ramotar, Councilwoman Wierzbowski and Supervisor Koetzle  
**Noes:** None  
**Absent:** None  
**Abstentions:** Councilman Martin

**Motion Carried**

**New Business:**

Councilwoman Wierzbowski – “Thank you to everyone that came here tonight and spoke to us. Quality of life is one of the things that when I ran for office I wanted to try to keep the same. I have lived in Glenville for over twenty years now. Some of you may know I did live on Ridge Road in between Church and Closson Roads, about half way in between, for a number of years. I did have an incident one time, I was with my infant daughter, we were walking down in the back forty that my mother-in-law owned and it was hunting season. We had a dog that looked like a small deer and we heard gun shots so I know what it means to hear gun shots in the woods and to not know where they are coming from. I was so scared, I ran so I can relate to how you must be feeling. It sounds like a pat answer to say “well it’s in the courts” unfortunately sometimes that’s the only answer we have but I do take this matter very seriously. Whatever we can within the confines of the law we will do. If there is anything that we can do to try to enhance our ability to enforce noise ordinances and things like that we will do it. You should not be living in fear in your own homes that is completely unacceptable to me. I completely agree with the individual that said, “along with ownership comes responsibility” and I heard you tonight and I will absolutely do whatever I can to make sure we get a resolution. Please be patient with us because sometimes we are constrained by just the process that we have to follow. It doesn’t mean that we aren’t trying.”

Councilman Martin – “I used to live in a home that had a lot of acres behind it and I had two dogs. I am very much attached to dogs in general and I let them out to play, I knew there were hunters out in the back woods, and one just never returned home. I never saw her again. If someone from this group could give me a phone number that I can reach one of you at, I will come up and see you this weekend. For me I have to see things first hand. I want to walk through the area and see it for myself.”

Councilman Pytlovany – “Thank you to everyone for coming and voicing your concerns. Nobody should live in fear and we are going to do whatever we can to help remedy that situation.”

Supervisor Koetzle – “I will work with the staff tomorrow like I had mentioned and we will get an email together.

I have been frantically trying to get the updates of the Scotia Glenville Boys Basketball game tonight, as we all know they are marching towards, hopefully, the State Championship. (someone in the audience announced that they won) 70 – 41, a round of applause was given. Congratulations!!”

Supervisor Koetzle asked for a motion to adjourn; Moved by Councilman Martin; Seconded by Councilwoman Wierzbowski, everyone being in favor the meeting was adjourned at 9:00 PM.

ATTEST:

---

Linda C. Neals  
Town Clerk
