Subdivision – Preliminary Review
Recommendation of Area Variance

The applicant is proposing the subdivision of a 16.13 +/- acre parcel into two (2) lots. One lot (approx. 11.14-acres) will have frontage on Barhydt Road with an existing residence, outbuildings, well and septic. The second lot (approx. 5-acres) is currently vacant and will have frontage on Wagner Road to be serviced by well and septic. An area variance will be required for the newly created parcel on Wagner Road as it is creating a non-conforming lot due to lack of frontage. The parcel is zoned Rural Residential/Agricultural.
